Vol. 6; No. 8.

## TRAIL RANGERS HELD BIG MEET ON EMPIRE DAY

The following is a full report of the district Trail Rangers athletic meet held at Irma on May 24th, 1922 when the officials were: Chairman of Meet, J. R. Love, Irma; judges of jumping events, J. Hollingshead, Irma and R. Huland, Edgerton; starter, R. Huland, Edgerton; timer, N. F. Priestley, Wainwright; scorers, J. R. Love and N. F. Priestley.

In all forty entries were received from the following towns. Hardisty, eight; Edgerton, five; Wainwright, sixteen; and Irma eleven, and of these eight from Hardisty and seven from Irma were qualified to compete in the Provincial C. S. E. T. outdoor athletic tournament, for the year 1922.

Unfortunately unforeseen circumstances prohibited the Hardisty Trail Rangers from taking part in the Irma meet.

The athletic grounds were in good shape and the weather was ideal. The programme commenced at 12 a.m. in the form of a banquet to all Trail Rangers in the district.

Some forty-six took part in this outstanding feature. At the banquet which was given by the Irma Trail Rangers arrangements were decided for the district summer camp to be held at Clear Lake near Heath commencing on the 12th of July. After every boy had been weighed and classified the thirty-two athletes paraded to the athletic grounds.

Here seating accommodation was had for about 250 people. The programme commenced promptly at 2 p.m. and competition was very keen in every event. The Irma boys have been in training for some time and had a great advantage over the boys of Wainwright and Edgerton who had only decided to take part about two weeks before the contest.

The five boys from Edgerton did remarkably well, particularly in the jumping events. Chester Spornitz was the outstanding athlete from Edgerton with a total score of 591 for the seven events.

Chester made the third highest score of all those competing and deserves special mention for the beautiful manner in which he won the running high jump event. Alf Martindale from Edgerton starred in the hop, step and jump by tying Wayne Mitchell's record in the jumping events with a total score of 591 for the seven events.

The sixteen athletes from Wainwright although having had very little time for training showed a splendid spirit by staying with the contest to the last event. Little Eddie Springer, although only about half the size of most of the boys drew the admiration of the crowd for his persistent effort. Allan Spence topped the score card for the Wainwright boys with a total of 573. Jack McLeod made a splendid record in the jumping events but lost out in the running and throwing contests.

The outstanding athlete of the day was Wayne Mitchell with a score of 704. Wayne has been training faithfully for some time and with one hundred and thirty-five pounds of bone and muscle he has an excellent chance of winning the provincial championship. Although his lowest score was that of seventy in the target throw, he more than evened it up in the distance throw by heaving the ball 216 feet which is thirty-eight feet farther than the standard required for 100 per cent. In this event Wayne made his largest single score of 138 points. His average for the seven events was slightly over 100. Earl Linnen was his nearest rival with a score of 624.

The Irma boys averaged well over the 500 mark and demonstrated the value of training by the fact that they kept their score up in each event and showed no apparent weakness in any particular event.

After supper a ball game was played between the Wainwright and Irma Trail Rangers which was very closely contested, the Irma boys winning by the score of seven to four.

In the evening lantern slides were shown of Boy's Camps in conjunction with the announcements of the results of the athletic meet.

The following is the order in which the first seven or eight boys finished in each event.

50, 75, and 100 Yard Dash

W. Mitchell, Irma, 100 yds, 12.25-

W. Mitchell, Irma, 50 yds, 7.90.
G. Morrow, Edgerton, 50 yds, 10.25.
D. Mathison, Irma, 75 yds, 10.25.
H. Murray, Wainwright, 75 yds, 10.35.
E. Linnen, Irma, 50 yds, 7.25.
E. Richardson, (3) Irma, 17.78.
A. Spence, (1) Wainwright, 17.35.
G. Fischer, Irma, 75 yds, 10.35.
Potatoe Race 60 yards.
W. Mitchell, (3) Irma, 16.15.
D. Mathison, (2) Irma, 17.25.

### A Gratifying Change

There has in times past been so much bitterness in Canada's party politics, and such a pronounced tendency for the leaders of one political party to refuse to say anything good in the policies and actions of the opposing party, that it is not only gratifying, but decidedly encouraging to note the change for the better which has taken place in recent years, and which is becoming more pronounced.

A pleasing manifestation of this was given a few days ago when, addressing one of our Western Canadian Clubs, Hon. H. H. Stevens, who was a minister in the Meighen Government, frankly stated that he believed the King Government was honestly desirous of helping the farmers of Canada in their present difficulties and was earnestly seeking a way whereby practical assistance could be rendered the agricultural industry.

Newspaper despatches reporting the proceedings of the Parliamentary Committee investigating the problem of wheat-marketing indicate that the members in giving consideration to this large and vital important subject, are not too slow to condemn or rebuke the present political opponents. In a false light, but are sincerely striving to evolve a policy and devise ways and means which will be practical and provide for the removal of present disabilities imposed on agriculture, and give to the producer of grain a reasonable guarantee that he will receive the largest possible financial return from his labor.

Both from the purely Western and the larger national standpoint the attitude now being displayed towards agriculture is most encouraging, and bodes promise that the same patriotic and business-like views will prevail when Parliament is called upon to deal with other great national questions, in the wise solution of which is bound up the welfare and prosperity of the people of this Dominion.

And why should this bigger, better, national viewpoint not prevail in our national Parliament? Considered in the mass, the Canadian people, while interested as all people living under a democratic form of government must be interested in the organization and policies of political parties, are not rabidly partisan and more concerned in the fortunes of a political party than in the good government of the country and the wise administration of Canada's affairs.

There was a time when it seemed to be the accepted view that when one party announced its policy on a given question, whether that party be in office or in opposition, there was only one thing for the other party to do, and that was to oppose the policy announced regardless of its merits. Fortunately for Canada that time now seems to have largely passed, and today political leaders are becoming more and more willing to acknowledge the good features of their opponent's policy and to show a readiness to co-operate in still further strengthening such policy and carrying it into successful operation.

In these difficult and trying times through which the whole world is passing it is not partisan, super-critical government that Canada requires, but patriotic, constructive co-operation by all members at Ottawa, regardless of the party with which they are aligned with the common object of giving the Dominion wise, sane, business-like administration. Let there be suggestion, and criticism and even opposition when it is called for in the public interest, but the main guiding motive of Liberals, Conservatives, Progressives and Labor needs to be the advancement of Canada's highest welfare and the sound development of national policies with a view to the happiness of the Canadian people and the enhancement of the prosperity of the country at large.

We repeat, therefore, that present signs are both gratifying and encouraging, and especially so to the men and women engaged in the banner Canadian industry, agriculture, which in the past has been the chief sufferer among Canadian industries from the old-style bitter partisanship which operated merely because the ideas and policies emanated from political opponents.

### Feed the body well

Right food for the body is more important than right fuel for the engine.

### Grape-Nuts

is a scientific food, containing all the nutriment of wheat and malted barley. Grape-Nuts digests easily and quickly, builds toward health and strength — and is delightful in flavor and crispness.

"There's a Reason for Grape-Nuts."

### Good Argument for St. Lawrence Waterway

Statistics Show Immense Tonnage Moved on Great Lakes

Shipping statistics show that the total tonnage on the Great Lakes in 1916 was 125,000,000; from Atlantic ports, \$0,000,000; Pacific coast, 10,000,000; Gulf coast, about 15,000,000, and rivers and canals some 25,000,000 more.

"This means that almost as much tonnage is moved on the Great Lakes as on all other American waters, and more than on our three coasts," says the Great Lakes-St. Lawrence Tide-water Association.

"And this is done in spite of the crippled condition of the St. Lawrence. With a seaway via the St. Lawrence, the Middle West will develop more water-borne commerce than all the rest of the world.

"Opponents of the St. Lawrence seaway may say this is heavy low-class freight, but in saying so they admit the need of water transportation for low-class freight cannot afford a long rail haul."

An Oil that is Prized Everywhere.—Dr. Thomas Electric Oil was put up in the original containers over forty-five years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout that continent. There is nothing equal to it.

B.C. Tree Seed for New Zealand.—Fifty pounds of Douglas fir cone seed and a small amount of Sitka spruce seed have been shipped from the Dominion forestry seed extracting plant at New Westminster, B.C., to the New Zealand Government, a similar shipment at the same time going forward to the Australian Government.

We are conquering the difficulties of the north faster as time goes on," he writes. "It was more than a thousand years from the time when the Romans thought that no civilization could exist north of the Alps until the civilization north of the Alps was really on a par with that of Italy. But it was only a century from the time when Benjamin Franklin thought that the little island of Guadeloupe was worth more than all of Canada until the time when secondate cities in Canada had become more important than the whole Island of Guadeloupe. By analogy we may expect that it will require only a decade or two for the same progress in knowledge and revolution in sentiment with regard to the northern prairies that are still called 'Barren Grounds' and are still supposed to be worthless."

Auctioneering and estate management, chirurgeon, and dental surgery are three professions in which good prospects are said to exist for women.

A Real Asthma Relief.—Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative indeed, when judged by the benefits which it promises. Extract the remedy and permanent benefits when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where so-called remedies have utterly failed.

Many temples in China are provided with a bell at the entrance and when a worshipper enters he gives the rope a pull to ring the bell in order that the gods may be notified of his coming and be at hand to attend to his prayers.

An Oil for All Men.—The sailor, the soldier, the fisherman, the lumberman, the oil-field laborer and all who are exposed to intense heat and the elements will find in Dr. Thomas Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism is extraction. Therefore, if you should have a place in all home medicines—and be amongst those taken on a journey.

London Bridge, England, cost \$10,000,000, 900 feet long and 54 feet wide, over 100,000 persons passing over it every 24 hours.

Will Keep Canada's Money at Home

Treatment of Canadian Ore Will Establish New Industry

Realizing that Canada has been paying annually millions of dollars for steel products purchased in the United States, and that steel plants in the interior of Canada have been dependent upon the United States for their supplies of iron ores, the Council for Scientific and Industrial Research at Ottawa has been investigating the native iron ore resources, and has secured reports from its committees to the effect that it is time to undertake the special treatment which the Canadian ores required to fit them for commercial reduction to pig iron. It is hoped thereby to establish a new and important home industry.

### Conquering the North

Stefansson Says it is Only a Matter of Time

The phrase, "The Friendly Arctic," which is the title of Vilhjalmur Stefansson's new book, is in itself a challenge and a defense for the rigors of the north which most people of the north fear and dread. The celebrated Canadian explorer, in an article in "World's Work" presents the case for a cold climate, and says life would have frequently extended its habitable regions, and notably in the case of Canada itself.

"We are conquering the difficulties of the north faster as time goes on," he writes. "It was more than a thousand years from the time when the Romans thought that no civilization could exist north of the Alps until the civilization north of the Alps was really on a par with that of Italy. But it was only a century from the time when Benjamin Franklin thought that the little island of Guadeloupe was worth more than all of Canada until the time when secondate cities in Canada had become more important than the whole Island of Guadeloupe. By analogy we may expect that it will require only a decade or two for the same progress in knowledge and revolution in sentiment with regard to the northern prairies that are still called 'Barren Grounds' and are still supposed to be worthless."

## Says That Canada Will Lead United States As A Wheat Producer

Canada soon will lead the United States in the production of wheat, declared Senator Calder, of New York, in addressing the Senate in opposition to the St. Lawrence waterway project. He expressed the opinion that the proposed canal was destined for the purpose of carrying Canadian wheat, and pointed out that Herbert Hoover had stated that the United States would become a wheat-importing nation within ten years. In presenting an interesting picture of the possibilities of Canada as a wheat-growing country, the senator said the Dominion would develop several times the wheat acreage of the United States.

"The peak wheat acreage in the United States," said Senator Calder, "was 75,694,000 acres, reached in 1919, an increase of 35 per cent over the acreage in 1910. The United States peak was 59,125,965 acres in the same year, an increase of 115 per cent, over the 1910 figure. Canada's wheat production increased from 13,000,000 bushels in 1910 to 26,000,000 bushels in 1920, an increase of 100 per cent. The production of the United States increased from 635,000,000 in 1910 to 833,000,000 in 1920, an increase of approximately 33 per cent. While production in the United States increased 23 per cent during the 1910 period, the value of the wheat crop increased 100 per cent, the 1920 value being \$50,000,000, the 1920 figure being \$1,197,000,000. During the same period the value of Canada's crop increased 400 per cent, being \$99,530,000 in 1910 and \$37,356,000 in 1920."

The average price per acre of the land devoted to wheat in 1920 was \$92. The average price of Canadian land now devoted to the production of wheat is \$42."

Senator Calder then read statistics showing details of the relative increase in Canadian and United States wheat-growing lands.

"But this is only part of the picture," the New York Senator continued. "Canada has but entered the lists. Its wheat growers have not even begun to fight. There are in Manitoba, Saskatchewan and Alberta 120,894,000 acres under private ownership. The total number of acres surveyed up to January, 1920, was 199,757,000. Of this total, approximately 25,000,000 acres are now available for homestead entry. In addition to the surveyed areas there are large tracts in these provinces which have been only partly surveyed. These tracts contain more than 250,000,000 acres."

A "corner section of land may be obtained as a homestead in these provinces on the payment of an entry fee of \$10. In Northern Ontario a quarter section can be obtained for 50 cents an acre, one-quarter in cash."

Now, here is the question: Grant ed equal transportation facilities, what will be the result of a contest for which 250,000,000 acres of land, valued at from 50 cents to \$43 an acre, is pitted against 75,000,000 acres of land with an average value of \$92 an acre?

"Bear in mind that the proposed canal is ostensibly being built primarily to carry wheat. Divorce the project from its aggressive agrarian support and it collapses. I concede

that perhaps this canal, if built, may carry wheat, but whose wheat? I ask you. The answer is unescapable—Canada's."

"I will not venture an attempt to prophecy regarding the future of the United States as a wheat-exporting nation," Herbert Hoover has given it as his opinion that within 10 years we will have become a wheat-importing nation. I neither reject nor accept that conclusion. But I know of no one better qualified to speak on this subject than our able secretary of commerce."

## ACIDS IN STOMACH CAUSE INDIGESTION

### Create Gas, Sourness and Pain

How to Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to the excess of hydrochloric acid in the stomach, and as some believe to a lack of digestive acids. The delicate stomach lining is irritated, digestion is delayed and food souring, causing the disagreeable symptoms known to every stomach sufferer knows so well.

Artificial digestives are not needed in such cases and may do real harm. Try laying aside all digestive aids and drink a glassful of Bismuthate Magnesia, take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no need for a laxative. Magnesia (in powder or tablet form)—neither liquid nor milk—is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach troubles. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

### Mystery of the Lightning Bug's Light

Wireless Operator Says it is Caused by Radio

The mystery of what makes the lightning bug light has been solved and the answer is radio. Hamilton Hamilton, operator on the North Star Blackhawk, flagship of the North Sea mine sweeping fleet during the war declared recently:

"Lightning bugs, Bailey said, are equipped with miniature audion bulbs and possess a low radio frequency and a short wave length. Radio waves generated by parent lightning bugs equipped with broadcasting apparatus cause the lightning-like flashes, he asserted. Each bug is equipped with its own antennae, the long feelers or whiskers, serving as the aerial, according to Bailey."

### New York Found in Switzerland

**Little Alpine Hamlet Near Lucerne Has Fifty Inhabitants**

A peasant handed in a telegram of a few words at a branch telegraph office for his wife in New York and placed a franc on the counter for payment. The clerk asked whether the wire was really meant to be sent to New York, and proceeded to make the calculation. When the comparatively large sum required was announced to the peasant he protested loudly and insisted that New York was in Switzerland.

And so it was found to be, but it took long and patient search through a large ancient volume to discover that there is a New York in Switzerland, a little Alpine hamlet of 50 inhabitants not far from Lucerne.

### Reports Gain in Population

Newfoundland Shows Substantial Increase While Labrador is Going Back

Newfoundland and its dependency, Labrador, has a population of 262,933, according to the figures for the recent census just issued. In 1911, the population was 242,619. The increase was on the island, the number of people living in Labrador having shown a considerable decrease. Denominationally, the population is divided as follows: Roman, Catholic, 86,475; Church of England, 84,498; Methodist, 74,334; Salvation Army, 13,051. All other denominations show increases of 12,947; the Anglicans, 5,882; and the Roman Catholics, 5,301.

**Etymological Bigotry**  
"How 'dyer like yer new boss, Mane?" asked one stenographer of another on the elevated.

"Oh, he ain't so bad, only he's kind of bigoted."

"What yer mean, bigoted?"  
He seems ter think that words can only be spelled in his way."—Boston Transcript.

The waters of the Grand Falls of Labrador have excavated a chasm thirty miles long.

## Poultry Performance Record Improvement Shown in Egg-Laying and in Number of Entries

That the record of performance in egg-laying established by the Poultry Division of the Dominion Livestock Branch, is appreciated is indicated by the increase both of breeders and entries for 1920-21 compared with the number entered in 1919-20. In the latter year the entries were 67 breeders and 4,436 birds and in the former 51 breeders and 7,511 birds. Quebec shows, according to the second report just issued, the largest increase in the number of breeders, and Ontario and British Columbia show the greatest increase in birds entered. The report indicates that the breeds most favored by British Columbia are Leghorns and Wyandottes, and by Ontario, Leghorns, Plymouth Rocks and Wyandottes. Quebec's fancy is for Plymouth Rocks and Rhode Island Reds. New Brunswick, Prince Edward Island and Saskatchewan also favor Plymouth Rocks. British Columbia stands well ahead in the number of birds qualified for the record. Ontario coming second, Quebec third and Saskatchewan fourth. Considerable improvement in this respect is shown in the second year compared with the first.

Certificates are issued for all qualified birds laying no fewer than 150 eggs in 52 consecutive weeks, with advanced certificates for birds that lay over 225 eggs in the same period, providing that the quality of the eggs is not lower than the grade specials in the Canadian standard for eggs and that they average at least two ounces in weight. British Columbia again shows to advantage in the advanced qualifications, with Ontario and Quebec following, with New Brunswick fourth, and Saskatchewan and Prince Edward Island tying. In British Columbia, 96 Single Comb White Leghorns granted advanced certificates, averaged 238.32 eggs per bird in the 52 weeks; 42 Wyandottes, 242.17 per bird; 212 Barred Plymouth Rocks, 241.17 per bird. In Ontario 44 advanced Leghorns laid an average of 245 eggs per bird in the 52 weeks, 21 Plymouth Rocks 234.16 per bird, and 18 Wyandottes 233.13 per bird. In Quebec 10 advanced Plymouth Rocks averaged 235.2 eggs per bird, and 6 Rhode Island Reds 233.3 per bird.

**After Ten Long Years of Suffering**

HE SINGS THE PRAISES OF DODD'S KIDNEY PILLS

Jules Labrosse, who had Bright's Disease, Gravel, Dropsy and Diabetes, got relief of Benefit he got from Dodd's Kidney Pills.

Jules Labrosse, Co. Quebec (Special)—After suffering for ten years from various forms of kidney disease which included Bright's Disease, gravel, dropsy and diabetes, Mr. Jules Labrosse, a well known resident here, is now so far recovered that he is singing the praises of Dodd's Kidney Pills.

"Dodd's Kidney Pills have rendered me a great benefit for which I am happy," Mr. Labrosse says in telling his story. "I suffered for ten years and am now very well. I went down to weight of 125 lbs. Now I weigh 160 lbs."

Dodd's Kidney Pills are purely a kidney remedy. Healthy kidneys strain all the impurities out of the blood. Pure blood carries new strength to the body rapidly. Ask your neighbor if Dodd's Kidney Pills do not make healthy kidneys.

Of the Scottish cities, Glasgow's population is now 1,034,069, an increase of 25,582, on 1911, while Edinburgh's stands at 420,267, a decrease of 3,779.

## SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn in Bed Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had brightening pains first and could not stand on my feet, then I had chills and fever and such pain in my right side and hard time breathing. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and was able to be up and to do my work again. The hard limp left my side and I feel no pain at all ways. I know many women it has helped," Mrs. G. Richardson, 4640 Orcas St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound has brought relief to everything anyone told me had failed."

If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, try Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

Jos. G. Willard, Editor of The Times, Lloydminster, Alberta.

## New Use for Wireless

### Fixed Boundary Line Between Northern and Southern Australia

Wireless has just been put to a new use. It has been brought into service for fixing the frontier line between two States.

More than half a century ago the 129th meridian of east longitude was chosen as the boundary between Western Australia on the one hand and South Australia and the North-East Territory on the other.

This line, however, was never accurately laid down, and, as it ran through an apparently useless wilderness, nobody cared very much.

But when, not long ago, oil was discovered at the northern end of the line, it at once became important that the frontier should be accurately defined so that there might be no doubts as to which State had the right to the oil areas.

The State astronomers of Western Australia and South Australia started to fix the true border, and they set about the work with a field wireless plant.

From Lyons, France, and from Annapolis, in the United States, they received time signals, and, after allowing the 25th part of a second for the transmission of the signals, the position of a point on the 129th meridian was worked out at each end of the boundary line.

The astronomer of South Australia, when asked how nearly accurate he believed the line had been fixed replied: "Well, we are within thirty yards of it. The concrete blocks at each end of the line are, at most, certainly not more than thirty yards out."

## Flame Burns Under Water

### Will Prove of Great Advantage in Salvage Work

A powerful flame that burns under water and can cut up steel plates, has been invented for salvage work.

A demonstration of its power will be given for the benefit of the British Admiralty and the big armament firms, in the Siebe German laboratory, where a huge tank is to be erected.

A steel plate three-quarters of an inch thick, had been neatly cut through at the rate of 20 inches a minute, under water. A hard steel file was similarly treated.

Under practical conditions, the device has power to deal with an eight-inch section of steel bar in six minutes.

M. Eugene Royer, the inventor, has already shown its successful working in the Lyons dockyard, and naval attaches in this country are to watch the demonstration.

## Medals for Life Saving

### President of France to Award Medals to Crew of Canadian Ship

The British Board of Trade has received eight silver medals and two bronze medals with diplomas which were awarded by President Millerand of France to certain members of the crew of the steamer Montague, of Vancouver, B.C., in recognition of the services they rendered to the crew of the French steamer Hsin Tien which was wrecked April 8, 1911. The medals and diplomas will be forwarded.

Where Some Things Are Cheap Japan's largest bathhouse was opened a few days ago at Norio, Yokohama. The building is of white brick and includes dressing rooms, bathing compartments, a barber shop, a lunch room and a reading room. One can get a bath for half a cent, a hair cut for a cent and a half, and two shaves for a nickel. No charge is made for tea or for use of the reading room, in which are all the latest newspapers and magazines.

Argentina has 22 public holidays during the year, Germany 19, Italy 19, Roumania 21 and India 21.

## Immigration From Europe Shows Big Increase

### During The Past Year

Canada is rapidly becoming a melting pot for continental European races. As compared with immigration from the British Isles and from the United States for the two fiscal years ending March 31, 1921, the accession of peoples from the continent of Europe showed a remarkable increase. Immigration from that region for the year ending March 31, 1921, was 224 per cent, more than that in the year ending March 31, 1920. The increase for the British Isles in the same two years was only 25 per cent. Following are the figures. Year ending March 31, 1920—from the British Isles, 59,603; from the United States, 49,656; from other countries, 8,007; total, 117,363. Year ending March 31, 1921—from the British Isles, 74,262; from the United States, 74,657; from the United Kingdom, 48,659; from other countries, 26,156; total, 148,477.

In a comparative statement for the years 1919-20 and 1920-21 giving the immigration into Canada, classified as to sex, a larger proportion of males came from the United States than through ocean ports. The influx through ocean ports during the year ending March 31, 1920, according to sex, was as follows: Males, 14,178; females, 37,656; children, 15,847; total, 67,681. In the following year European immigration was divided as follows: Males, 43,017; females, 38,075; children, 19,296. The statements for immigration from the United States show: Year ending March 31, 1920—Males, 26,694; females, 12,551; children, 10,611; total, 49,655. For the year ending March 31, 1921—Males, 26,761; females, 11,302; children, 8,996; total, 48,659.

Farmers and mechanics head the list of immigrants for the year ending March 31, 1921. Following are the figures, showing the influx according to occupation, and including male, female and children: Farmers or farm laborers—Via ocean ports, 23,716; from the United States, 17,177. General laborers—Via ocean ports, 9,862; from the United States, 7,119. Mechanics—Via ocean ports, 8,613. Traders—Via ocean ports, 6,102; from the United States, 541. Female servants—United States, 1,610. Not classified—Via ocean ports, 35,079; from the United States, 5,614.

Immigration by destination, classified as to provinces, for the year ending March 31, 1921, was as follows: Nova Scotia—Via ocean ports, 1,762.

All the wasps of a nest are said to die in the winter, except a few females, which hibernate in a hole or under a stone.

Would Stop Making of Oleomargarine

A. W. Neill, Independent, Comox, Alberni, has given notice of his intention to move in the House that the margarine should be discontinued in Canada after Sept. 1 next.

## "Why You Should be a Shareholder in This Co."

## BECAUSE—

A Standard drill will start drilling on acreage that this company holds a royalty interest in and offset acreage from this well in the Kevin field.

## BECAUSE—

This year's development of our present holdings and holdings that we are securing, with stock holdings in different companies should give us a royalty and dividend interest in many different oil fields throughout Montana and other States.

## BECAUSE—

Money raised from the sale of Shares of Interest in this company is being used to acquire a Royalty Stock and Lease Interest in different oil fields throughout the State of Montana and other Oil States and carry on a general exchange business in Oil Langs, Oil Royalties, Real Estate and Oil Well Supplies for the benefit of the Shareholders.

## BECAUSE—

Our Land Department is a going concern, holding under option and sales contracts, thousands of acres of farmland, ranches, and city property.

## BECAUSE—

Our Oil Lease, and Royalty Department have for negotiation over 50,000 acres of Oil Leases in the Sweet Grass Arch and other different promising oil fields throughout Montana.

## BECAUSE—

The Field Supply Department handles every kind of material used in oil field work, orders for both NEW and SECOND-HAND star and a standard drilling machinery. Casing, Piping, Cables are being negotiated for by oil operators through this Department for the New Oil Fields of the Sweet Grass Arch.

## BECAUSE—

The company offers you a proposition different to anything you have ever had offered to you before.

## BECAUSE—

This proposition has all the conservative features of any industrial proposition, and at the same time possesses all the possibilities that one can look for in a legitimately managed Company.

## BECAUSE—

Look this proposition right in the face. Could we afford to misrepresent our proposition to you? You know, as we know, if our proposition is not as represented, or better, we could not expect to build our business to as high a rank and standing as we anticipate.

## BECAUSE—

You now have before you a proposition that you can well afford to put your money into, and one which you need not fear as to returns.

## BECAUSE—

This Company's Trustees are taking advantage of the wonderful opportunities which exist in Montana Oil leases today. The Gordon Campbell strike at Kevin illustrates to you the future possibilities for profit that are ahead of this company. It takes combined capital to do this. A small amount of your capital will allow you to share in these profits—for the "Coming in" of any more new areas will stimulate lease values, so that a few thousand acres will be worth many times the low capitalization of THE HOLDING & ROYALTY COMPANY.

## BECAUSE—

A shareholder in THE HOLDING & ROYALTY COMPANY participates in all Real Estate, Bonds, Stocks, and all other securities and property of every nature secured by this company. This alone will give you ample security on your investment, but when you count the wonderful possibilities of making money from Oil Leases and Royalties you should not overlook this wonderful opportunity to secure Shares in this Company.

## BECAUSE—

You can easily see the possibilities for making money for our SHAREHOLDERS through the acquiring of these royalties in both small and large tracts throughout the different oil fields of Montana and other States.

## BECAUSE—

OUR CAPITALIZATION AND DIVIDENDS is only 40,000 Shares Preferred, Par Value \$1.00, cumulative 7 per cent dividends, 95,000 Shares Common. No Par Value, can receive as much as 50 per cent or more dividend after the preferred is paid.

## BECAUSE—

In our opinion an investment in this Company will secure you the biggest kind of profits. You make no mistake in purchasing shares in a royalty Company who are getting as many different holdings in as many different fields as they can. This spreads your money more than you possibly could any other way.

## BECAUSE—

This may be the last opportunity at the price and on the terms of this special offer and less than 3,000 shares will be offered in this special issue. Following issues will only carry 1-2 to 1-3 Common Shares Free. Fill out the annexed Coupon below and attach your check to it without delay. No letter is necessary—only prompt action. Fill out the Coupon for what you can handle of it and no matter how unfortunate your other Oil Stocks may have been this will enable you to recoup on them and average down their cost. You can make your reservation by wire at our expense to make sure of it, and let remittance follow by first mail with order.

## BECAUSE—

THIS OPPORTUNITY WILL SOON BE A THING OF THE PAST AND YOU WILL PAY MORE LATER.

## Main Street

Mr. L. Lennon is acting as agent for the Wainwright Creamery at Irma.

Mr. Roy Whyte was a visitor to Edmonton last Tuesday.

Miss Inez Fenton was a visitor at Edmonton this week.

Two aeroplanes passed over Irma the first of the week.

Mr. W. Masson returned the first of the week, after spending a week in Edmonton and intervening points.

Mr. N. D. McMillan of Bremner spent the week end re-newing acquaintances in the Irma district.

Mr. Gordon Facey was taken to the Edmonton General Hospital for treatment last Saturday.

Born, to Mr. and Mrs. J. C. McKay on May 27th, at Royal Alexandra Hospital, Edmonton, a son, (Donald) Both doing nicely.

The Canadian National Railway have had a ditching machine working along the grade on the Irma section during the last week.

Miss C. Higgins who has been spending the winter with her brothers George and Fred intends leaving Saturday for her home in Ontario.

Rev. G. and Mrs. Elliott are attending the Methodist conference at Edmonton. Mr. J. R. Love will have charge of the church service for next Sunday.

Miss K. Bibby arrived in Irma from Toronto last Sunday night, and will spend the summer at Irma with her parents. Mr. Bibby has purchased the dry business from Mr. P. Jones.

Mr. Guy Jackson was attending court in Edmonton last Tuesday in connection with a suit the Elevator Company are having with the Railway over a leaky grizzly car.

Mr. W. Henderson has completed the new school which is a credit to the Village of Irma.

The Town Fathers had had a gang of teams grading the north of Main St.

The fast train made three stops in succession the first of the week. Several citizens who had heard that it would stop took advantage of the chance to go to Edmonton on the night train.

Several cases of scarlet fever have been reported in the district. Monday the Irma school was fumigated and all children that have been sick for the last week or so were re-examined by the health officer. So far the cases are all of a very mild type.

Last Friday afternoon what might have been a bad fire was discovered in the nick of time. Two men waiting for the morning train had rented a room in Shaw's Hotel and in some way had set fire to the furnishings, before going out of the room. The door was shut and the fire was not discovered until the bed curtains and furnishings were badly burned. Mr. Shaw and some of the neighbors threw the burning articles out of the window in time to save the wood-working taking fire.

## CHAUTAUQUA HERE FOUR DAYS IN JULY

The Chautauqua is away this year to a good start. It is now up to everybody to boast hard for seven weeks. The tent must be full every session. The program is exceptionally good. Prospects for a good crop are bright. The price is so small that everyone can save it up long before the dates; July 12-13-14-15. Four big days, drama full of good things.

Mathew Wayman, one of Canada's foremost thinkers, gives an intensely interesting lecture on Canadas relation to European affairs.

Fred Osborne bring a good concert party.

Burnell Ford, famous inventor and scientist, gives a wonderful demonstration of electricity. He brings a large amount of equipment, and this one lecture alone is worth more than the price of the season ticket.

A three act comedy, a real play, "Other Peoples' Money," is a new feature.

Mattison Wilber Chase has an inspirational lecture. The Ralston Frosh entertainers give a musical day.

Lethe Coleman is a delightful young woman, who has lectured on the big Chautauqua platforms, and comes to Viking with a special message for women.

Clifford Foot has a full program of music duets, trios, solos, and does many stunts, water colors, paintings one act plays, Indian numbers, etc.

This is only a forecast of the good things. We will tell you all about it in the coming weeks.

The Chautauqua brings to the small towns programmes full of the outside world, full of hope, inspiration and sound reasoning. We need these things, or we are apt to get into a rut. Eight hundred people daily would not be too many for this Viking district, one of the best districts of all Alberta. Take a four days holiday in July, and attend every session. Tickets this year to all eight entertainments are only two and a half dollars, less than the price of a box of chocolates for HER. Children enter all shows for the sum of one dollar for the season. Start saving up ice cream money today, and lets see every child there.

### BAD ELECTRIC AND WIND STORM

Last Friday night the Irma and Wainwright district had one of the worst electric and wind storms that had been witnessed in the district. The wind appeared to follow the Battle River until it struck the derrick at the old Grattan Oil Well. This was demolished to the ground, no one was near the well at the time but the wind made a complete job of demolishing the derrick. Part of the roof of the station at Hockins was landed several rods north of the right way fence. Further north the stable at Sunny Brae school was lifted clear of the fence and landed bottom side up. The storm then appeared to swing east and several granaries and small buildings were moved as it approached Wainwright. At Wainwright considerable damage was down to outbuildings and windows. Further east the water tanks at Heath and Arland were reported to have been badly damaged. Around Irma and west a very heavy rain fall beat some of the grain into the ground. As the grain was not high enough to hurt it is not thought that any damage has been done to the growing crop.

### ROAD WORK TO START SOON GOVERNMENT HIGHWAY

Mr. E. D. Robertson of the Public Works Department has been in Irma this week arranging for the work that will be needed in completing the highway between Irma and Kinsella. It looks as if this strip of road, which has been one of the worst roads in the country would soon be connected up with the main highway to Edmonton.

### ICE CREAM FACTORY

This week Irma has a new industry added to its list of business's. Mr. Kenneth Stewart has had a new building erected in the rear of his Ice Cream Parlor and is installing power machinery for the manufacture of Ice Cream. With the installation of this machinery he will be able to have a fresh supply of Ice Cream on hand at all times. Also saving the express from Edmonton which amounts to a large sum during the busy season.

### APPLE BLOSSOMS ATTRACT ATTENTION

The Irma district may yet compete with parts of B. C. and old Ontario if indications of the two apple trees in the yard of Mr. J. H. Elliott are any criterion. These trees are loaded with fragrant blossoms and appear as Ontario or B. C. trees.

### NEW ELEVATOR MANAGER

Mr. J. W. Robson, travelling superintendent of the G. G. Co. was in town Thursday arranging a change in management of the local elevator. Mr. Price Jones, of Spruce Grove will relieve Mr. R. W. Maguire who is being moved to Spruce Grove.

### LAND FOR SALE

The Soldier Settlement Board of Canada

Offers for Sale By Public Tender:

The South West quarter of Section Twenty-eight (28) Township Forty-eight (48) Range Nine (9) West of the Fourth (4th) Meridian, Zoldovara P. O.

Terms of Sale 10 per cent Cash,

Balance 25 years, Amortized Interest 6 per cent.

Tenders will be opened on Saturday, June 10th, 1922 at 10 A.M.

The highest or any tender not necessarily accepted.

Tenders should be marked "Sale No. 124".

G. McMorris,

District Supt., Williamson Blk, Edmon-

ton, Alberta.

### PERSONALLY CONDUCTED TOUR TO THE PACIFIC COAST

Attractive personally conducted tour to the Pacific Coast is offered by the Canadian National Railways at a minimum of expense, for persons desiring to take an educational or recreation trip this summer.

A special train, consisting of the most modern equipment, will leave Winnipeg 11:30 p.m., June 30th, running through to Prince Rupert. Stops will be made at various points of interest en route including Watrous (Little Lake Manitou), Saskatoon, Wainwright, (Buffalo Park), Edmonton, Jasper (National Park) where party will visit the new Jasper Park Lodge, take a trip to Maligne Canyon; while canoeing on Lac Beauvert, horse back riding and dancing may also be indulged in; Mount Robson; Kitwanga, an old Indian village with its many specimens of totem poles and old fashioned graves; one of the salmon canneries; and other interesting points where special entertainment will be provided the party.

At Prince Rupert the party will make direct connection with the S.S. "Prince George" for a side trip to Anyox (Observatory Inlet) and return, at a slightly additional cost, for those who may desire or passengers may remain over at Prince Rupert, taking this boat south from there at 12:00 midnight, July 6th, for Vancouver via Canadian National Railways direct or via any other route from Seattle.

Specially reduced summer excursion fares, including meals and berth on special train and on steamships, will be available for this tour.

Passengers from branch line points should purchase excursion tickets via Prince Rupert, making connection with the special train at nearest convenient point on main line—Grand Trunk Pacific Division.

Never before has such an attractive tour at such low cost been offered by any railway. For special folded-outlining itinerary rates, reservations, etc., apply to any agent of the Canadian National Railways or to W. J. Quinlan, District Passenger Agent, Winnipeg.

J. Madill, District Passenger Agent, Edmonton.

Wm. Stapleton, District Passenger Agent, Saskatoon.

### MORE SILVER LANE ITEMS

Mr. and Mrs. J. A. Bell had what came near being a serious accident on the 24th. A buggy shaft came unfastened, and the horse ran away, upsetting the buggy and throwing both Mr. and Mrs. Bell out of the rig. Both were severely bruised but not seriously hurt.

Charley Bronson came over from Daysland Sunday for a few days visiting with his father, Ray Bronson and family.

The Irma baseball team crossed bats with the Silver Lane Sluggers on the C. P. R. section, Sunday afternoon. Of course only a part of the section was used for playing purposes. The Sluggers, I mean the Sluggers, made four scores and the Irma boys made 21.

Some of the superstitious folk have reminded us of the coincidence of the section number, which is 21, and the Irma score, and suggest we ask the boys to come back in the near future and play on section 1 or 2.

A party of about thirty from this vicinity went picnicing on Battle River Sunday afternoon. After a feast of good eats which they took along, the men chose sides and played football, while the women folk cheered on the side-lines. A heavy shower of rain broke up the game and the entire party hurried to Jim Case's for shelter, driving on home after the rain had passed.

Mrs. Quittenton drove over to Lougheed one day last week and organized a class in voice production and singing. She will meet the class there every other week.

The Progress Club met with Mrs. N. Moore, Thursday afternoon. Fourteen members were present, Mrs. J. S. Walters was received into membership.

Mr. Allan Hamilton, of Edmonton, spent Saturday and Sunday with Hall Reber.

Mrs. George Rubinot was over from Louisville neighborhood Thursday and visited her mother Mrs. N. Moore.

Mrs. R. C. McFarland was out from Irma for a few days last week visiting her parents Mr. and Mrs. C. A. Riley.

J. B. Horn last week received a setting of eggs from Wapella, Sask. He paid twenty-five cents apiece for them. They are from a pen of White Wyandotte hens which made an average record of 225 eggs each last year.

### LEWISVILLE

Born, on May 14th to Mr. and Mrs. P. Voros, a daughter.

Mrs. Dan West of Silver Lane is at P. Voros' on a visit.

School has reopened after Miss Johnson's eastern trip. The Alberta girls trimmed 'em 40 to 18. No use, the offee East can't stand up against the Western girls and boys.

An aeroplane passed over here on the 24th, for "Doin's" somewhere.

One more bachelor, Charlie Lemberg, not far from Fabian has been cleaned out by fire. All he saved was a trunk, a raincoat and a diper.

Good fishing in the river, so they say—nice pike.

It is understood that it is against the law to camp or make fires on a Forest Reserve, and yet a bunch of fellows are encamped on an unfenced park land, and holding down 175 head of cattle brought in from other parts for grazing. The Municipal law is being pushed through as fast as possible, but it seems as though the Park authorities could handle this within the municipality.

### WAINWRIGHT VS IRVING

On Tuesday evening Wainwright and Irving played a very good game of baseball which ended in a 7 to 5 score in favor of Irving.

In the first innings Wainwright took the lead to 2 to 1, and Irma came back in the third innings with a three base hit by Love to start with followed by a one bagger by Jackson and another three bagger by Ewers and a one bagger by Archibald put Irma ahead by the score of 4 to 2. In the fourth innings Wainwright got one run making the score 4 - 3 and on Wainwright's half of the fifth they came ahead with the score standing 5 - 4 but Irma did not stay behind very long as they put the score 6 - 5 in their favour in their half of the fifth. In the sixth innings Wainwright went down without a score, only one man reaching first and Irma gathered in one more run making it 7 - 5 in Irma's favour and the first half of the seventh Wainwright went down one, two, three.

The sensational play of the day went to Wainwright's shortstop who made a lovely catch of fly back of short and Cooney the old reliable Irma twirler pitched his regular steady game and it was hard to pick any stars as the boys on both teams played steady baseball!

Wainwright—Plaxton, Roughlin, Johnson, Siddle, Ryan, Mackay, Blinn, Richardson, Maybe.

Irma—Love, W. Stuart, T. Jackson, Ewers, Cooney, Archibald, Keller, Guilford, Peterson.

## Public Notice.

## LORD LISTER & Zam-Buk

Lord Lister's discovery of antiseptic surgery has saved the world a lot of lives, but it has been left to Zam-Buk to bring into millions of homes the full benefits of antiseptic healing. Zam-Buk is the greatest antiseptic healer that has ever known. Being a natural vegetable origin Zam-Buk has distinct and positive advantages over other antiseptics.

Zam-Buk is a compact, and highly-refined herbal balm with an antiseptic power many times greater than that of any ordinary salve or ointment. Zam-Buk quickly relieves disease pain and instantly relieves heat and irritation. It first cleanses a sore place and then grows over it new healthy skin. As a first aid dressing for injuries, and for the treatment of insect bites, ulcers, ringworm, abscesses, poisoned wounds and piles. Zam-Buk is used the world over. It has the high endorsement of Dr. A. G. Arnould, author well-known doctor surgeon and dentists. 80c. box, 3 for \$1.25, all dealers.

## THE WORLD'S ANTISEPTIC HEALER

## MY CANADA

BY ELLIOT MARSHEN ELLIOT

Published by Special Arrangement with the Author

(Continued)

II.

Winnipeg,

June 4th, 19—

When Mr. Arnold came home for luncheon to day he suggested that we should all go out on the river for the afternoon. We went. And the result is that my face and arms are burnt to a blister. I am sure that Canadian sunburn is worse than the English variety. Fortunately for the continuation of my diary, I am not fit to see so under a half-inch layer of red crust. I have gone into retreat for the evening.

I am greatly tempted to describe my adventures in the Pullman sleeping car, but according to Mary, that is to come.

Our train pulled into Winnipeg on the morning of Tuesday May 31st. The morning was wet. It rained, brush my coat and to gather up the various belongings without which no Englishwoman can travel. I do not like to think that the courtesy and consideration shown to us by the workers on the Canadian Pacific Railway is entirely due to a fondness for tips; surely the virtue of simple kindness is at least partly responsible.

When Ralph was a small boy, come one summer with him in his taste for "buggy" things gave him an illustrated book of "Boots of the Wilds of North America." One picture in it haunted my dreams for years. It depicted a scene of savagery between two rows of savages looking Indians. I was now, after all these years, the interested spectator of a similar scene minus the Indians.

As I stepped off the train, a young Frenchman took me by the hand with "This way, lady; the gent just outside," and I followed him across the

### I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is an unusual and persistent tired feelings and pains in the back.

Neglected kidney trouble leads to years of suffering from rheumatism or develops into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills — the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmaston, Bates & Co., Ltd., Toronto.

## The WISHING FAIRY

*Continued*

Pimzie Finds Something Interesting.

**A**s you know, Pimzie is the most adventurous of the Fairy's four Brownies. He grows restless every now and then and when this feeling comes on his idea is to hop up and away and to call his friends and lots of fun. As usual, he had always wandered from his End-of-the-Earth home, and he was having a perfect time amongst some rocks near the seashore. Playing would have been entirely agreed had it been his tide, but it was the deepest, lowest kind of a low tide and the rocks were fully exposed with pools between them; here and there were bare stretches of sand, making a wonderful place to play. So it could hardly seem surprising that Pimzie was not only having a glorious time but was also having a great deal of fun. His friends were very much the same, and when all is said and done Brownies are very much like small boys, especially the mischievous kind, such as Pimzie! He looked ruefully at his suit, for it was so soaked and full of water. "It's heavy . . . even my hat was wet!" He was quite lost. He had never seen these here were his new clothes that Steel's Darning Needle dressmaker had made him, and the hat was the one he was so fond of, with the red tassel.

As the sun was warm he decided to strip and stretch his clothes on a high rock to dry. No sooner thought of than done! In less than a minute Pimzie was quite naked and was swimming in the sea, for he had not been able to swim before. He himself is so little that he didn't frighten or even disturb the countless tiny sea creatures sharing the pool, for they looked upon him almost as one of themselves. I suppose there are so many different kinds of creatures of the sea and sand that a new one more or less never surprises the others. Of all the Brownie saw, none made him more surprised than the Hermit Crab. They were everywhere, all around him. All that a Hermit Crab needs for a fight is to see another Hermit Crab! The mere sight of one another seems to enrage them so that they immediately engage in furious battles, and Pimzie watched one fight after another. "Gracious," he had exclaimed, "they're fighting!" "They certainly are a rowdy lot," said Pimzie, "but the fighting is about." And after a little while he suddenly realized what the trouble was.

Do you want to hear something more about these tiny Crabs and what the Brownie found out by watching them?

It seems that without meaning to, he had moved an empty shell with his foot, and the entire crew of all the Crabs had been in the act of trying to find another shell to see if he would like that one better than the one he had been living in. He had outrun his old shell and it had become uncomfortably tight, so this was his way of getting rid of it. He had fought his way up to the Hermit, and in his fight, tried to scratch back to the safety of his old shell, but he couldn't find it. Horrors and horrors! He couldn't well imagine being in any worse trouble, and fearing sure that he was in the nest of the Hermit Crab nest-mates dashed wildly back and forth, this way and that, in the vain hope of retreating to his refuge before something terrible happened to him.

Pimzie being a tease, took the shell and, holding it tightly hidden in his hand, was anxious for a long while, while the tiny Crabs got the opportunity of seeing just how a Hermit Crab looks without the borrowed shell, for, as you surely know, these tiny little crustaceans have no shell of their own and to protect their little bodies, which are only covered with skin, they have to depend on their wits as well as their fighting powers to go forth and find some suitable shell.

Next week's story will be more about what Pimzie saw.

Copyright, 1922

platform. I wish I had a photograph of the scene. My eyes were closed as I entered the door of the station. From one side of the rotunda to the other stretched two rows of people, and between these two rows the incoming passengers were gathered. In the most compact fashion, and they were recognized by onlookers. The whole distance is probably two hundred feet or less, but it seemed to me to be at least twice that. I wanted to get inside to find the Arnold, who was waiting for me at the door. I had felt sure that Mr. Arnold would meet me, but imagine my joy when I saw not only Mr. Arnold and Mrs. Mary, but also I may also admit that a woman turned up to turn my luggage checks over to Mr. Arnold. Men are useful when all is said and done.

In a few minutes we were in a taxi and were winding along Main Street on our way to the Arnold's home. I had always understood that American cities were laid out strictly according to rule, but it appears that Winnipeg's main thoroughfares deservedly break all rules. The reason is that the early days, before Winnipeg was a calf strayed from the settlement in Kildonan and made its way to Fort Garry. Winnipeg is built on the site of the old fort, and it is found that on horseback, next day another man in his Red River cart took the same trail. In this way Main Street, Winnipeg, was duly opened without the assistance of any modern invention as civil engineers compasses, tape-lines, and transit. It is probably unnecessary to add that calves do not, as a rule, wander in a straight line, and it is considered essential to the welfare of the city to make a change. Main Street remains as crooked as on the day the innocent calf broke the trail. It goes against the grain to admit it, but it is necessary to remember that some prosaic people assert that the old road followed the bends in the notoriously crooked Red River.

Rouge—this is south of the Assiniboine River. To the north of the city伸展 to the westward, I shall insert here a map of Winnipeg and its surroundings.

Then I copied the outline of the rivers and of Main Street and Portage Avenue from a wall pocket little production known as "Wagoner's Guide." I hope no one will conclude that Winnipeg has but two streets—there are millions of them, but it is difficult to find some Winnipeg people—but an elaborate map is beyond my skill.

Mary has just been in to admire my handwork. She asked if it were a Art Nouveau design for wall-paper or an Impressionist rendering of the

Times have changed.

"Do you remember the old stories about the boy who went to the great city and came back home just in time to pay the mortgage off the farm?"

"Yes," replied Farmer Corrissel. "It's different now. When a boy leaves the farm the home folks have to hold themselves in readiness to go to town and help him out with his rent and his grocery bill."

This is supposed to be the site of one of La Verendrye's forts," replied Mary.

I hope that my complacent face hid from her the knowledge that for all I knew La Verendrye might be the last man of importance I took the first opportunity to ask Mr. Arnold for enlightenment, but I think it would be a step in the right direction. If you will get a copy of "Garrison's History of Canada" you will find the outlines of Canadian history before we leave England; we should do so if we were visiting any other country, you know. I do not mean that we should study Canadian history, but rather to find some British history, as far as possible, in the early days of the country. Mr. Arnold has given me several books on the subject, and I intend to "make good" if I have to lose sleep over it. Actually my British public school received a very poor blow with the knowledge that France was largely responsible for the early development of "British" North America.

(To be continued)

The First Talking Machine

The teacher was exasperated. The class was idle and inattentive, and just a little out of hand.

In desperation she changed the subject from mathematics to science, and began to ask each boy and girl questions about the great inventions of the age.

"Now, then," she said impatiently, "what was the first talking machine made of?"

After a while a voice from the back of the class "broke the silence": "Please, miss, a rib."

## Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself without consulting a physician.

Exact Copy of Wrapper.

## Children Cry For

*Fletcher's*

## CASTORIA

Have You Tried It?

Everybody has read the above headline; how many believe it? Have you a little-one in the home, and has that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Castoria. Watch the difference in the tone of the cry, the look in the eye, the wiggle in the tiny fingers. The transformation is complete—from pain to pleasure. Try it.

You'll find a wonderful lot of information about Baby in the booklet that is wrapped around every bottle of Fletcher's Castoria.

## Cutting Ice and Sowing Wheat

Recently the unique spectacle was witnessed near the town of Botha of the ice harvest in progress on one side of the road allowance, whilst sowing was under way on the other. The warm weather had put the land in good shape for seeding and induced one farmer to get out his drill, whilst the same weather suggested to his neighbor the advisability of getting in his ice supply before that available was exhausted.

## Felt Like He Would Have To Quit Work

Winnipeg Citizen Says Taniac Built Him Up Fifteen Pounds And Put Him Back In Finest Health---On Job Every Day Now.

"Before taking Taniac, I always felt tired and worn out, but now I don't recall ever feeling better, and I have actually gained fifteen pounds in weight," said James Cheney, 816 Sagart Ave., Winnipeg, Man.

"Seven years ago I began having pains in my back, over my kidneys, and from year to year they grew worse. Then, some time ago my stomach began troubling me, I had almost no appetite, and my strength failed rapidly. I was frightfully nervous, couldn't sleep, and finally got so weak and hurt so bad I felt I'd have to quit work entirely."

"After taking everything I thought could help me, I read a testimonial of Taniac and it fit my condition exactly. Then I bought a bottle and began to get better right off. Now my troubles are gone and I'm in fine shape. Taniac has done it all and to me it is the best medicine in the world."

Tanac is sold by all good druggists.

### China's Railway Mileage

Has Less Than 7,000 Miles of Railways All Told

With a population of nearly 400,000,000 and an area of 3,915,000 square miles, China has less than 7,000 miles of railways all told, or about one-thirteenth the railway mileage of the United States, with less than one-third the population of China and a land and water area smaller by 300,000 square miles.

For the motor truck and the motor tractor China is a virgin territory holding out immeasurable possibilities of development.—From the New York Herald.

### An Example of Value of Aviation

Australian Surgeon Used Airplane to Make Emergency Call

An example of the great value of aviation in bringing far-away places near to the city and science in case of emergency, was a call from Carnarvon, 500 miles away, to Dr. Treathowan, of Perth, West Australia.

The services of a skilled surgeon were urgently required, but there was no railway communication. One of the Western Australian Airways machines, flown by Lieutenant Kingston Smith, left Perth at 3 p.m. and arrived at Geraldton three and a half hours later. The doctor met the machine there, and the next morning at 6 o'clock left Carnarvon, arriving long after people in Perth had breakfasted.

The operation was performed, and at 6.15 the following night Dr. Treathowan was back in Geraldton Aerodrome after concluding the fastest call in his career.

Although—blind from childhood, a man living near Bolton, England, is an expert gardener, and frequently acts as judge at flower shows.

### Harmless Foods

#### Poison Some People

Many Cannot Eat Things that are Commonly Used. "One man's meat is another man's poison," runs the saying, and there is a lot of truth in it.

In his book, "Food Poisoning and Food Infectious," Dr. William G. Savage records the case of a boy who was unable to eat eggs in any shape or form, no matter how disguised.

When fourteen months old, he was given a spoonful of boiled egg. After only a taste of it he screamed violently and clawed at his mouth, which immediately became swollen. Red welts appeared about the lips.

Even playing with egg shells brought out similar weeds on his arms and hands. This went on until his mother realized the cause of the trouble, and ordered all eggs to be banished from the household.

Some time later, however, the child accidentally swallowed a small portion of the white of an egg. The boy suffered more severely than he had done before, and became half unconscious for three hours.

Such mysterious "illnesses," known to medical men as "Idiosyncrasies," are far more common than is generally realized, and they can be handed down from parent to child. In one case four generations of the same family were unable to eat potatoes without becoming seriously ill.

Many people find that they cannot eat fish, tomatoes, pork or shell fish, even such seemingly harmless things as almonds and other kinds of nuts are poisonous to some people.

### Sciatica's Pains Relieved Quickly By Nerviline

In bringing quick relief to the Sciatic Sufferer, the best remedy is frequent applications of Nerviline. Thousands of people have found that Nerviline penetrates deeply, every drop rubs right in. The irritated nerves are soothed and the pain goes away. Wherever there is Rheumatism, Neuralgia, Lumbar or Muscular Pain, the quickest relief always comes from the use of Nerviline. See at all dealers.

#### Rockefeller's Gifts to London

The Rockefeller Foundation has given £1,000,000 to the University of London and the University College Hospital. It has also made an offer of \$2,000,000 for buildings and equipment for a school of hygiene in London, on condition that the British Government make provision for teaching and maintenance. The offer has been accepted. These are substantial returns for sundry benefactions of Englishmen to our country in its struggling days.—The Independent.

**HEALTHY CHILDREN ALWAYS SLEEP WELL**

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers if your children have not yet learned to walk, take a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulates the bowels, tones the stomach, banishes constipation, colic and indigestion, and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the newborn babe with perfect safety. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Wm. Pierce Co., Brockville, Ont.

**Queer Signs in Japan**

The Prince of Wales enjoyed many a laugh when he saw some of the signs with English inscriptions which several Japanese tradesmen display outside their shops. Here are a few which may catch his eye. "Tallor of Resistant Wet Coat," "Bagges, Sent any Direction by Internal Railway," "Horse-bif Shop," "Coats Made from any Hides Yours or Ours," "Ladies Furnished in the Upper Story."

#### Money for Industries

Provincial Government of Vancouver Loaned Over a Million

Sixty-six industries, employing between 800 and 900 persons, are now in operation in British Columbia, under loans granted by the Provincial Government to establish and stimulate industries according to the latest report of the Department of Industries. To establish the industries, the Government has loaned them \$1,105,656. Six of the industries thus established have progressed so well that they have repaid the whole of their loans.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

A Turkish carpet made for an English peer contains 22,500,000 stitches; its manufacture occupied eighteen months.

Minard's Liniment in the house

### To REMOVE BAD COLD MEDICINE NOT NECESSARY

#### The Balsamic Vapor of "Catarho-zone" When Inhaled Quickly Dispels Colds

Every breath you draw through Catarhozone Inhaler, the whole breathing apparatus with pure piney essences that stops colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the head and throat, the nasal cavity and every trace of cold and Catarrh disappears. Catarhozone is so sure, so pleasant, such a safe remedy for winter ills that you can afford to buy it in the largest quantity. It lasts two months, small size, 50c; trial size, 25c; all sizes or the Catarhozone Co., Montreal.

### An Outfit That Will Soon Be Seen Everywhere

All hands are now extremely busy replenishing their wardrobes for the spring. And one of the most important items in this wardrobe is the spring suit. Shown here is a very charming suit of gray twill. The self-colored hand embroidery and the neat tailoring contribute to the distinctness of this suit. A large straw hat laden down with cherries of different shades tops off a costume that will be very familiar in a short time.

**Manicurists of Old**  
Manicurists are not a recent development. Long years ago the poet wrote: "There's a divinity that shapes our ends"—Kingston Whig.

Graduates of 103 American colleges and universities are now studying in French universities, 524 in all.

### What Men Admire Most in Women is Perfect Health—the Sign of Strength

Barrie, Ont.—I was surprised to find a rundown system some time ago, was unfit to perform my daily duties. I was advised to try Dr. Pierce's Favorite Prescription. I tried it, took two doses and my strength was restored to my natural strength. Dr. Pierce's medicine too highly and will be willing to write to any one sending a stamped envelope.—Mrs. A. H. Bishop, R. R. No. 1.

#### Mothers, Advice for You!

London, Ont.—"I wish I could tell all the women in the world who suffer with rheumatism, what a wonderful medicine Dr. Pierce's Favorite Prescription is. My earliest experience with it was during my pregnancy. I became dropsoff and my people were alarmed about my condition. The doctor's medicine did not seem to reach my trouble at all, my husband urged me to try Dr. Pierce's Favorite Prescription and it did him good. Before I had finished the second bottle the distress and dropsoff left me and I felt in absolutely perfect health. Had no trouble with my pregnancy. I am now in my second trimester and I am still taking Dr. Pierce's Favorite Prescription whenever in a nervous rundown condition and it always strengthens and uplifts me."—Mrs. Lillian E. Smith, 433 Ontario St.

At all drug stores, 42c and 10c to Dr. Pierce's Laboratory, in Bridgeburg, Ont., for trial pkg. tablets.

### Young Scientists Needed

#### Pulp Industry Requires Trained Men to Solve Problems

Here are a few of the problems faced by the men in the paper and pulp industry in Canada.

They have heavy losses every year as a result of the decay of wood in storage. Also some mills now have to haul their logs long distances. Also, and this fact is not generally known, the pulping processes have been only slightly improved in the last fifty years.

The value of the industry will be increased at least 25 per cent, when all these problems are solved, but a great deal more intensive scientific investigation is necessary in connection with each one of them.

An effort to supply the deficiency in trained men is being made by the Council for Scientific and Industrial Research of Ottawa. Arrangements have been made to award 7 Fellowships, 9 Studentships and 29 Bursaries among men who are taking scientific courses, and it is hoped that among them may be found suitable scientists who will devote themselves to the solution of the problems of the pulp and paper industry among others.

### WHEN WOMEN SUFFER

Look for weakness or ill-health. See if it is not a side ache, headache, restlessness, etc. These are early symptoms that you need the gentle assistance of Dr. Hamilton's Pills. This soothing medicine is a great friend to womankind. They are a wonderful relief to constipation, they cleanse the body of accumulated wastes and poisons from the system. Girls and women can use Dr. Hamilton's Pills with great success. Thousands use no other medicines and rely entirely on them. Hamilton's Pills regulate the system and keep it smooth running order, 25c all dealers or the Catarhozone Co., Montreal.

#### Time to Spend Money

#### Would Help to Create Fresh Productive Start

If we all sit down and do nothing, and wait for others to help us, we shall not move far. We must help ourselves: There must be a spirit of enterprise, a determination to hustle. Under its influence the ranks of the unemployed will soon be thinned and the whole country will enjoy a more healthy and invigorating atmosphere. The worst policy for us all to pursue is to sit tight on our money and thus let stagnation continue. There are times when spending money boldly is far better than exaggerated thrift. Spend it now and give the whole country a fresh productive start. Don't talk about what you are going to do later on when times get better. Do it now, and times will get better. It is now, and times will get better. Johanesburg Times.

#### New Publicity Medium

Address on Canada's Merits Transmitted by Radio to U.S. .

For the first time in history the merits and attractions of Canada were made known to the public within a radius of 250 miles of Omaha by radio telephone. The occasion was the delivery of an address to the Rotary Club of that city by Mr. J. Bruce Walker, Director of Publicity and Information Bureau, Department of Immigration and Colonization, Winnipeg, Manitoba. Mr. Walker's address was broadcast through Iowa, Nebraska and Missouri, through the friendly courtesy of the proprietors of the Omaha Daily News and it is estimated that between 15,000 and 20,000 persons heard his address through the medium of radio. This marks a new development in publicity for Western Canada and in the means of promoting information and good will between Americans and Canadians.

#### Tracing Tuberculosis

#### Origin Can Be Easily Traced by Keeping Records

By marking hogs and keeping records of their source until they have been slaughtered in the packing plants it is possible to find the farms on which tuberculous hogs originated. The use of this system has helped to find many herds of diseased cattle, for the hogs usually get tuberculosis from cattle. However, it sometimes happens that no tuberculosis is found among the cattle on farms from which tuberculous hogs have been shipped. In these cases evidence has been found indicating that the hogs probably became infected from poultry. It is believed that in a large percentage of the cases where hogs are infected and the cattle are clean, avian tuberculosis will be found on the place.

Liverpool is now stated to be the soutest place in England, Hull and Newcastle upon Tyne being second and third.

Marco Polo was the first European traveler to speak of Japan, and he called it Oipango.

Ask for Minard's and take no other

### ROYAL YEAST CAKES

#### MAKE PERFECT BREAD

#### AN IMPORTANT PRODUCT OF CANADA

Bread is the finest food on earth—the one food that everybody eats and that agrees with everybody.

Bread made in the home with Royal Yeast Cakes tastes better, keeps fresh longer, and is more nourishing than any other.

#### Radio in the Arctic

#### Equipment Will be Protection for Amundsen and His Men

To the equipment of the Arctic explorer, Amundsen, will add the radio. When next he ventures into the locked seas he should never be beyond communication by wireless with the outside world. No matter how far north he may penetrate he should be able to send word of his whereabouts or to call for needed relief. It will be a new form of protection against the rigors of the northern winters and a means of escape from the tedious isolation of a prison-like existence.—New York World.

#### Dye Any Garment Or Old Drapery In Diamond Dyes

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or paint certain fabrics. Diamond Dyes is guaranteed with "Diamond Dyes" even if you have never dyed before. It is a safe, strong, permanent dye. Sweaters, stockings, diapers, hangings, curtains, etc., can be dyed. Just tell your druggist whether the material you wish to dye is wool or silk, or rayon, and he will tell you what color to use. Diamond Dyes never streak, spot, or run.

**Light Burns a Minute**  
Electric lights that remain alight for a minute after they have been turned off at the switch will be appreciated by anyone who has ever stumbled over a chair on the way to bed or cracked his head on a half-open garage door. A thermostatic element keeps the current on for 60 seconds after the switch is opened.

#### Vancouver Port Growing

The growth of Vancouver as a seaport cannot be better illustrated than by the custom's returns for the fiscal year ended March 31, 1922. The total revenue collected was \$12,956,875, an increase of \$3,400,000 over the preceding year.

#### HOW'S THIS?

HALL'S CATARRH MEDICINE will do wonders for those suffering from symptoms of Catarrh or Deafness caused by寒風. We do not recommend it for any other disease.

HALL'S CATARRH MEDICINE is a great remedy for those suffering from catarrh, especially in the nose, throat and lungs, in the mucous surfaces of the system, thus reducing the inflammation and swelling of the mucous membranes, restoring the normal conditions.

All Druggists. Circulars free.

A. J. Cheney & Co., Toledo, Ohio.

**Calgary Famous for Bull Sales**  
Calgary has become famous as having the largest annual association auction sale of pure-bred bulls in the world. At the twenty-first annual sale this spring 425 pure-bred beef bulls from the best herds of Alberta changed hands at the local stockyards. In the past twenty-one years since the initial sale in 1901, a total of 5,651 pure-bred bulls have been sold for an aggregate of \$1,029,750.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

**Business Improving**  
Building permits for the first three months of this year for Vancouver, B.C., represent a total value of \$900,000 as compared with \$750,000 for the first quarter of last year.

### Genuine Aspirin
